

# MEET ME...

# for Adventure!

## Discover the Volcanic Legacy Scenic Byway

Make your way toward **Crater Lake National Park** where you'll overnight at the **Historic Crater Lake Lodge**. Here you'll spend the night and begin your journey on the **Volcanic Legacy Scenic Byway**.

### DAY ONE

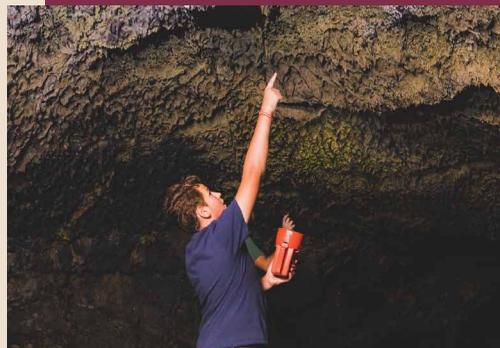

The Crater Lake Region is home, of course, to Crater Lake – a shimmering body of water that fills the caldera of Mount Mazama. The lake fills a gaping hole left by one of the earth's largest explosions in 8,000 years. As the northern jewel of the Volcanic Legacy Scenic Byway, **Crater Lake** stuns visitors with its beauty. The lake, which is the deepest in the United States, can be explored in many ways, including taking a **Boat Tour** to Wizard Island. Overnight again at Crater Lake Lodge.

Crater Lake National Park

### DAY TWO

In the morning there will be plenty of photo opps with the sapphire blue backdrop as you enjoy a guided **Trolley Tour** on Rim Drive. Just south of Crater Lake, you will learn about the Modoc Indians and their struggles with settlers at the **Fort Klamath Museum**. As you catch glimpses of Mount McLoughlin and Mount Scott along the Byway – remember that you are entering into a land of powerful upheaval where natural beauty and adventure are plentiful. For the adventurous, just let go on the **Crater Lake Zipline**, with nine zips, two sky bridges and two rappels. For something less extreme, take a kayak tour at Malone Springs near Rocky Point with ROE. Overnight in Klamath Falls.

Lava Beds National Monument

### DAY THREE

You will head south to delve into the history of the **Tule Lake Segregation Center** where Japanese were forced to live during WWII. Then continue on to **Lava Beds National Monument** for more history and exploration. Spend most of the day at Lava Beds NM where you can become an expert spelunker with over 700 caves to explore made from a series of volcanic eruptions over the last half-million years. Become immersed in both geological and historical turmoil. Connect the history from Fort Klamath with the **Modoc Indian War** and how the Modoc used the caves and terrain of the Lava Beds as a home field advantage to elude the US Cavalry for five months. Continue your journey at the end of the day toward Lassen Volcanic National Park and overnight in Burney.

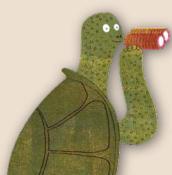

Burney Falls

### DAY FOUR

After breakfast, make your way to **Burney Falls**, an easily accessible 129-foot waterfall, which flows at 100 million gallons of water each day. The Waterfalls Region is home to Burney Falls and the McCloud Falls, displaying a total of four waterfalls. Then head to **Lassen Volcanic National Park**, home to smoking fumaroles, meadows freckled with wildflowers, clear mountain lakes, and numerous volcanoes. Jagged peaks tell the story of its eruptive past, while hot water continues to mold the land. Overnight in Red Bluff.
